Welcome to the NetTutor® Manual

On this site you can find great ways to receive the best assistance in subjects like mathematics, chemistry, accounting, English composition, and languages. You can log in from anywhere in the world, provided you have Internet access. All the cool features of NetTutor® will be discussed in detail in the various sections of this manual. So, let's get started!

First, check out the table of minimum requirements to connect to our NetTutor® system.

If you are you running:

WINDOWS

Windows XP, Windows Vista

Then for your	you can use
Internet Connection	28,800bps or faster modem, ISDN, DSL, Cable or LAN
Browser	Internet Explorer 6, Internet Explorer 7, FireFox 2
Computer Processor	300 MHz
Computer Memory	128 MB RAM (XP) or 512 MB RAM (Vista)
Other	Adobe Flash 9, Office 2000/XP/2003/2007, Windows Media Player 9

Windows 98se, Windows ME, Windows 2000

Then for your	you can use
Internet Connection	28,800bps or faster modem, ISDN, DSL, Cable or LAN
Browser	Internet Explorer 6, FireFox 2
Computer Processor	166 MHz
Computer Memory	64 MB RAM for Windows 98se
Other	Adobe Flash 9, Office 2000, Windows Media Player 9

For using Audio Features of the NetTutor® Live Class	you can use
Internet Connection	56,000bps or faster modem, ISDN, DSL, Cable or LAN
Computer Processor	300 MHz Pentium II
Free Hard Disk Space	8 MB
Other	Adobe Flash 9, Sound Card with Microphone (optional headset)

If you are you running:

MACINTOSH

Mac OS X 10.2, 10.3, 10.4, 10.5 Then for your	you can use
Internet Connection	28,800bps or faster modem, ISDN, DSL, Cable or LAN
Browser	FireFox 2, Safari 2 (on Mac OS X 10.4)
Computer Processor	Power PC G3, G4, G5 or Intel Core
Computer Memory	128 MB RAM for Mac OS X 10.2
Other	**A**dobe Flash 9

You need to get a User ID and a password. Generally, this means that either NetTutor® or your group administrator registers you into the tutorial classes. So ask them first.

About Link-Systems
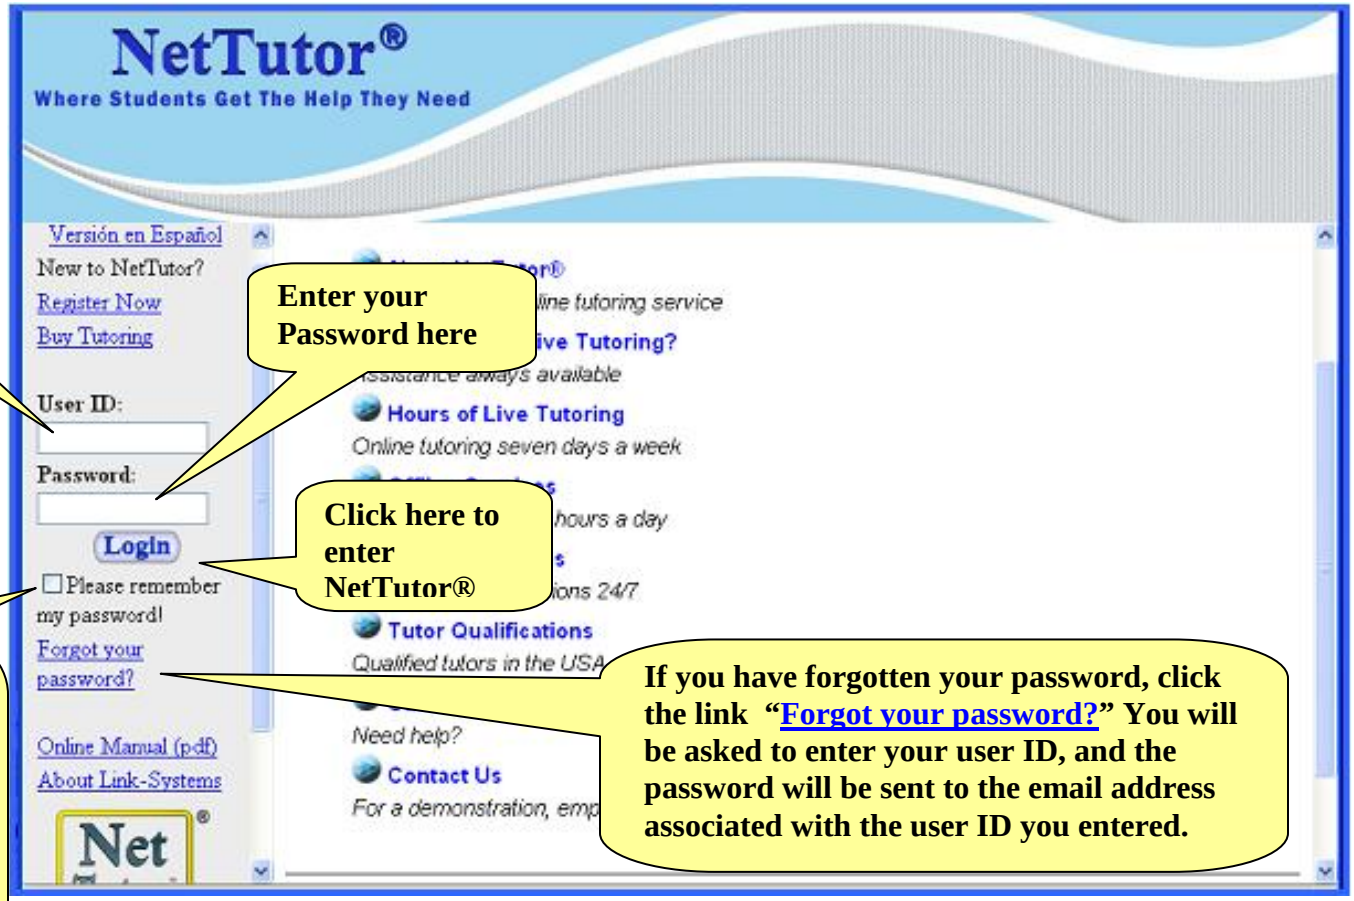
You need to enter a valid Access Code.
Enter the code on the card that is packaged with your new book or enter the code that your instructor/admin provided. If you need help or have questions, please use Customer Support Request link at the bottom of this page.
OK

If you have a 10-digit access code for access to NetTutor, type it in the Access Code field.

NOTE: If you have a 20-digit PIN code for access to NetTutor, the "Access Code" field will be filled in already when you come to the New User Registration page. Do not attempt to change this access code! Instead, click anywhere on the form and the PIN Code form will open. Type your PIN code into this form and click "Okay".

Then continue by filling out the registration form and clicking "Register". *Be sure to enter a valid email address -- one to which you have access!*

Logging into NetTutor® is as easy as going to http://www.nettutor.com/, and then entering your user ID and password in the spaces provided on the left.



Enter your User ID here

Enter your Password here

Click here to enter NetTutor®

Check this box if you want your computer to remember your login information.
After that, when you visit http://www.nettutor.com, on this computer you will automatically be logged in.

If you have forgotten your password, click the link "Forgot your password?" You will be asked to enter your user ID, and the password will be sent to the email address associated with the user ID you entered.

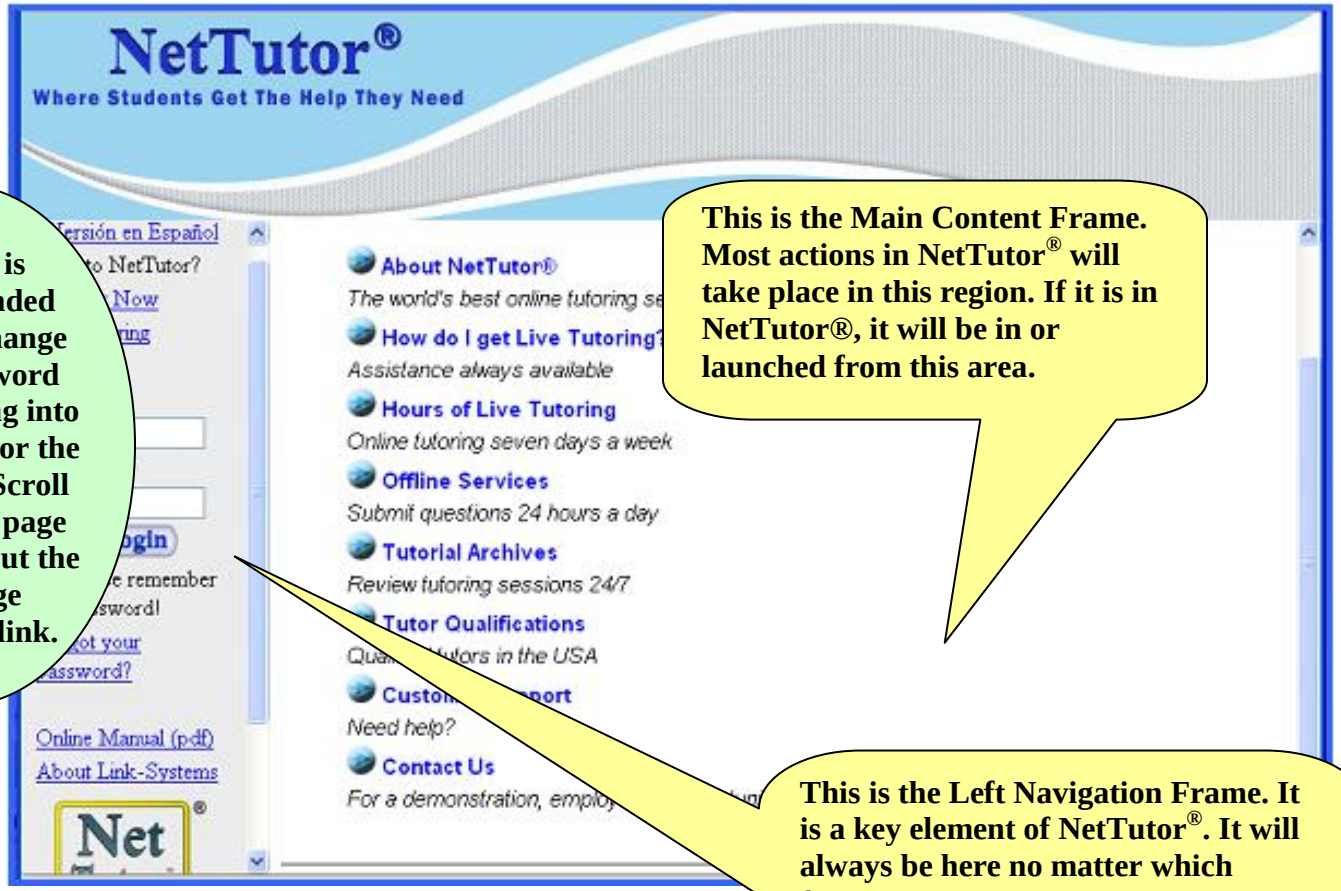
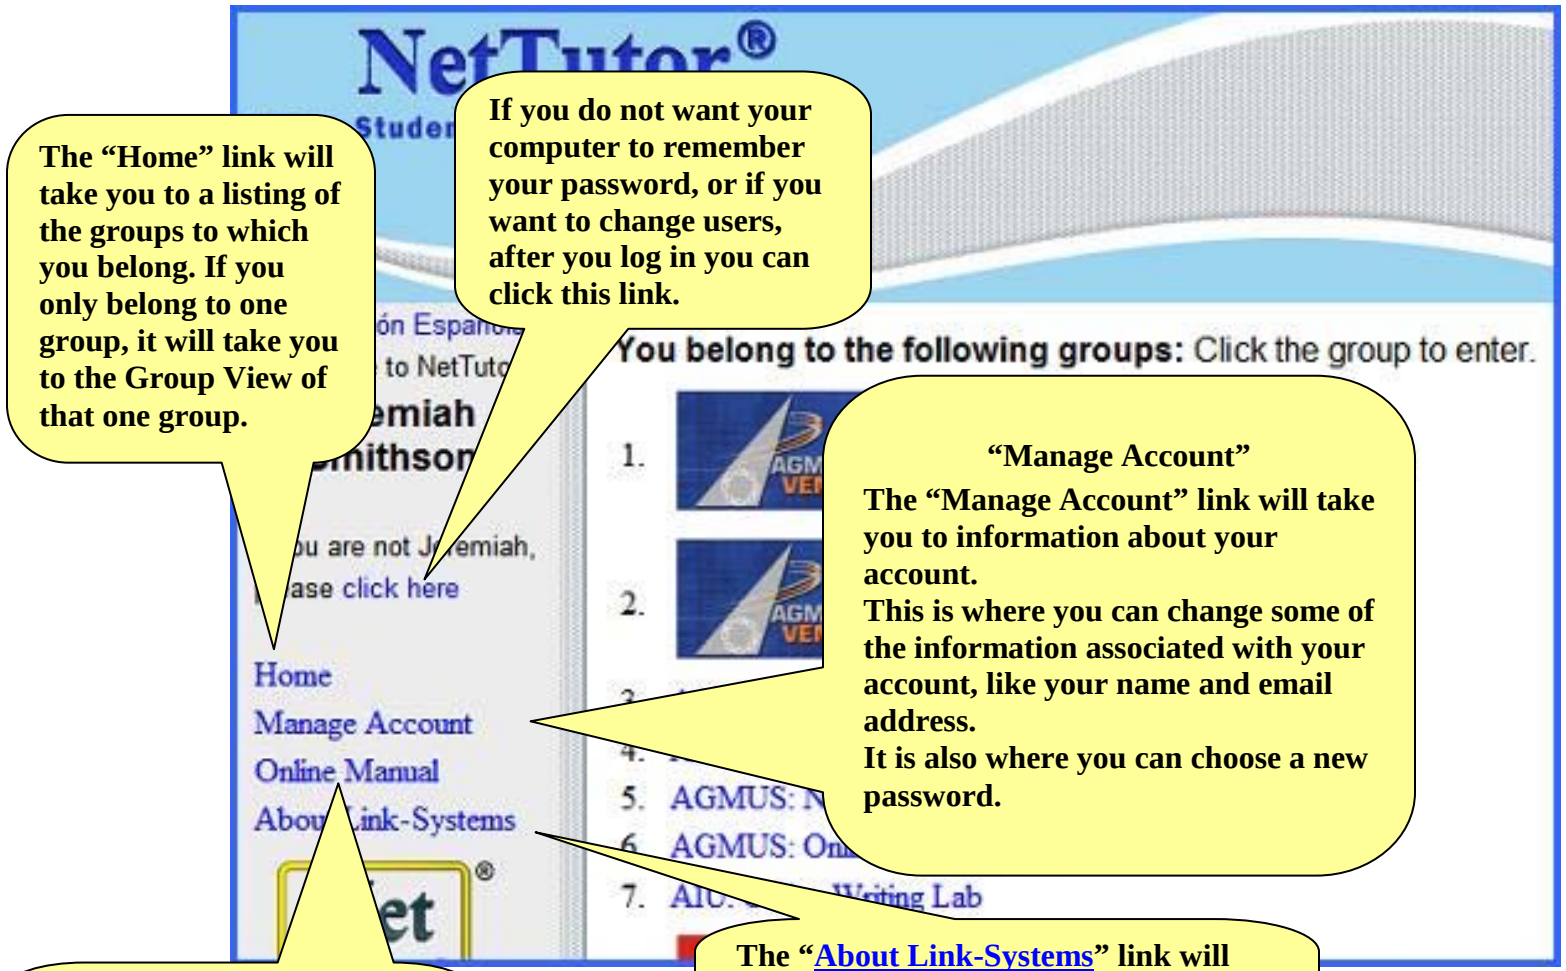
This test will run automatically the first time you log on from a computer, but you will not see it again in subsequent logins.



Hint: **It is recommended that you change your password when logging into the system for the first time. Scroll to the next page to learn about the "Manage Account" link.**

This is the Main Content Frame. Most actions in NetTutor® will take place in this region. If it is in NetTutor®, it will be in or launched from this area.

This is the Left Navigation Frame. It is a key element of NetTutor®. It will always be here no matter which function you choose. There are some links that are always present, and others that will be visible if your tutor allows. In the following pages there is a list of links, and their function.



The "Home" link will take you to a listing of the groups to which you belong. If you only belong to one group, it will take you to the Group View of that one group.

If you do not want your computer to remember your password, or if you want to change users, after you log in you can click this link.

"Manage Account"

The "Manage Account" link will take you to information about your account.
This is where you can change some of the information associated with your account, like your name and email address.
It is also where you can choose a new password.

The "Online Manual" link will bring you to this manual.

The "About Link-Systems" link will take you to the website for Link-Systems International, the company that created NetTutor®.

This is your Home Page.

This is the Group View where you and your tutor have the ability to perform most tasks for the currently selected group.

This text contains the Group Name, the tutor's live schedule (if available), and other available features.

not sure how to work this thing.
José. Welcome to NetTutor. If you have a question, just type it as you
one above.
ot this exercise that says: _____ una chaqueta de cuero
I'm suppose to use the imperfect with the verb llevar.
at's an imperfect tense
tense
imperfect tense is similar to the english "I used to..."
instance, if I wanted to tell a story about my past, say, what I used to do
when I was in 10th grade, I can start by saying "in the summer I used to go to the beac
with my grandparents. To say that you have to use the imperfect tense. "Iba a la
playa con mis abuelos."
and how's tath diffrent from the preterite cause I don't get the past at all
Ok, think of it as a continuum.
This can be a point in time, say,
"One summer I met a beautiful
chick"
The continuum is an ongoing action, say "I used to go to the beach every
summer."

Exit Chat:

When you connect to the live chat session, you are placed in the current WorldWide Whiteboard™.

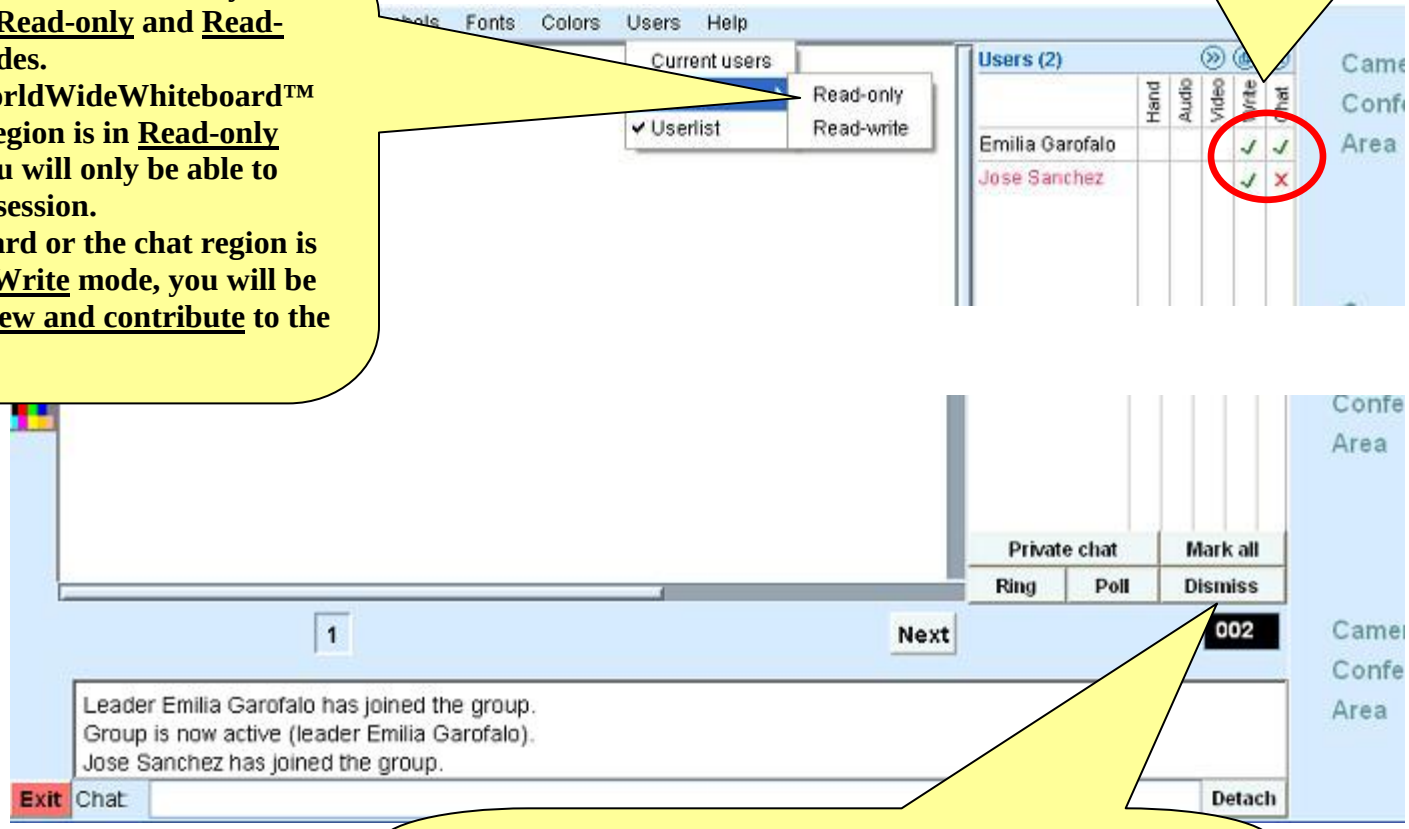
If you are not ready for the board to switch, simply click on this red countdown biscuit to cancel the switch.

The tutor can decide when the board is full and switch to a clean board by clicking the "Next" button.

The <u>Chat Region</u> will show that you have canceled the board switch. Note: The tutor can disable the cancel switch option.

This area indicates when you are in Read-only or Read-Write mode with either a red X or a green check mark in the Write or Chat columns. Here the student can write on the board but not in the chat region.

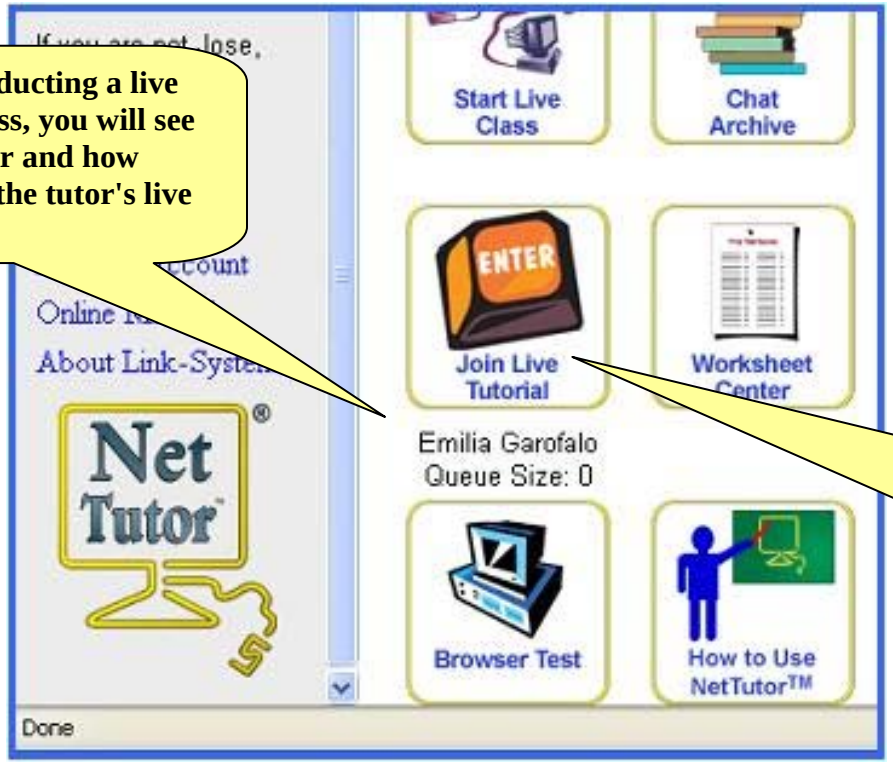
Only the tutor can switch you between Read-only and Read-write modes.
If the WorldWideWhiteboard™ or chat region is in Read-only mode, you will only be able to view the session.
If the board or the chat region is in Read-Write mode, you will be able to view and contribute to the session.



Some tutors will also be given the option to dismiss a student. If you are dismissed from a chat session, you will not be able to re-enter. However, since all of the boards are archived when the chat session is finished, you can see them by clicking the Chat Archive icon, discussed later.

The Live Tutorial is a one-on-one interactive environment. Everyone connected to that board may watch, but only one student at a time interacts with the tutor. Here is the icon used for Live Tutorial.

When a tutor is conducting a live tutorial for your class, you will see the name of the tutor and how many people are in the tutor's live queue.



Click on this icon and the WorldWideWhiteboard™ will open automatically in "View" mode. This mode allows you to watch the tutor help other students.

Can you please explain to me what the subjunctive is? I don't have any idea and I'm so confused!
Absolutely! Think of the subjunctive as the "May and Might" phrases in English. You say: "I may go to Spain in the fall." This gives the reader or listener the idea that it 'may' or 'may not' happen for you. When there is a doubt or a future action involved, whose outcome is yet to be determined, we use the subjunctive in Spanish: Puede ser que vaya a España en otoño. Notice that the verb in the subjunctive, 'vaya' is always preceded by the conjunction 'que'. Ok, so now think of the entire phrase as two train cars.
Puede ser
It can be
que
that
vaya a España en otoño.
I may go to Spain in the fall.
Ok, so far I got ya.
This is in the indicative mood, so just regular present tense.
This clause, on the other hand, is in the subjuntive mood because the outcome is not yet determined, or it depends on many other factors.
OMG! this makes so much sense... I think I got it! Thank you so much!!!!
No problem. Thanks for using NetTutor.
Ok, I'll probably have other questions, so you'll see me again.
W are here for you. Glad I could help
When the tutor gets to your question, you will be notified by a bell and placed into "Interactive" mode. Your one-on-one tutoring takes place in this mode.
View Tutorial
You can return to "View" mode by clicking on the "View Tutorial" button. You will again be able to see how your tutor is answering other students' questions.

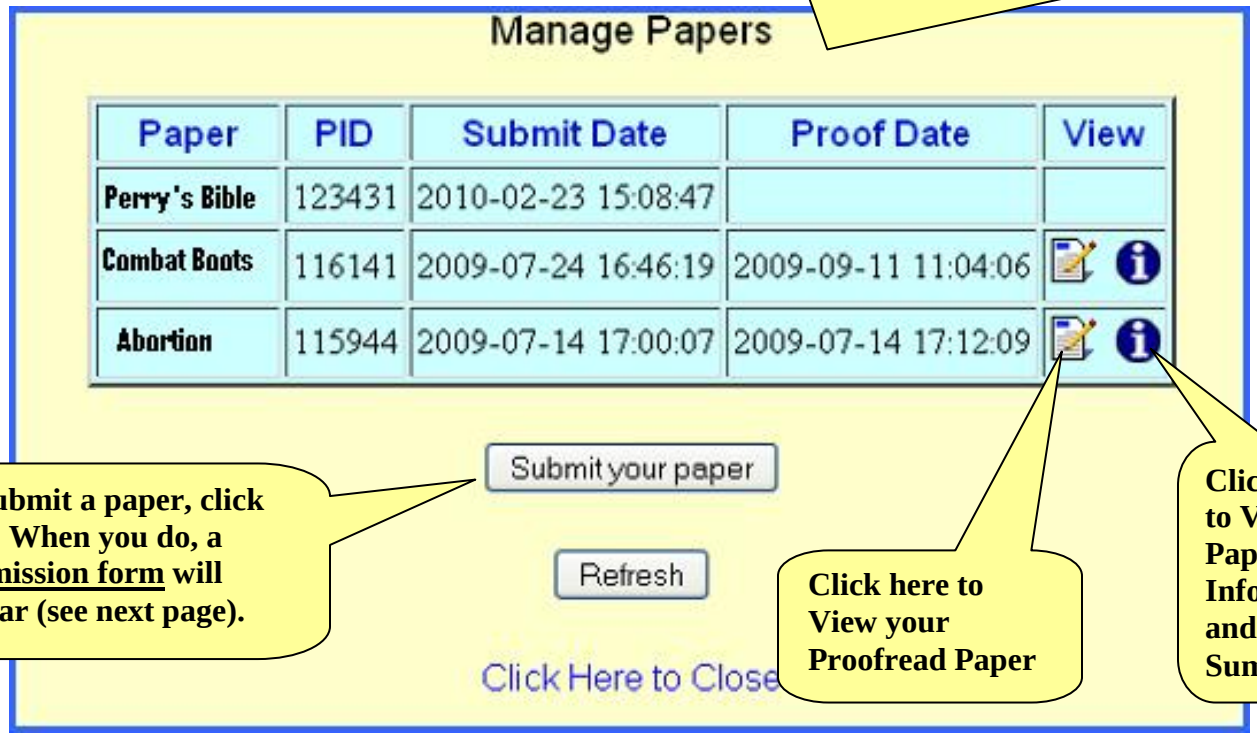
Question t195 asked at: Tue Feb 23 12:07:08 2010
Replied by clopez1 at: Tue Feb 23 13:09:28 2010
Main clause
Subordinate clause
verb
Indirect objec
Direct object
How do you say "I need for the director of marketing to send me his specs." Is this correct in Spanish? "Necesito el director mandarme sus especializacion?
Well, you have to consider that the first clause "Necesito" is in the indicative mood. The subordinate clause, according to Spanish grammatical rules, has to be in the subjunctive. Both clauses have to be connected by the conjunction "que", so the phrase should read:
(Necesito) que (el director de marketing
Now you have to attach to the phrase the direct and indirect object- in Spanish the ID rule applies: Indirect before Direct. So you add to the above phrase: me mande (subjunctive mood)
(to me he send)
and now the direct object: las especificaciones.)
You can ask a follow-up question
CLOSE
Clicking on this link will include this image on a new whiteboard. Submitting a follow-up question is similar to asking a question in the Q&A Center in that you need to record the question code and come back later to retrieve your answer.

The Paper Center is where you can submit your paper for proofreading, and where to view and pick-up your paper after the tutors have made suggestions for corrections. Here is the icon used for the Paper Center.

Clicking on the "Paper Center" icon will bring up a listing of your uploaded papers, if there are any. The "Manage Papers" table will have a listing of the paper's name, its submission date, the date it was proofread or examined by the tutor, and a link to view the suggestions for corrections.



To submit a paper, click here. When you do, a Submission form will appear (see next page).

Click here to View your Proofread Paper

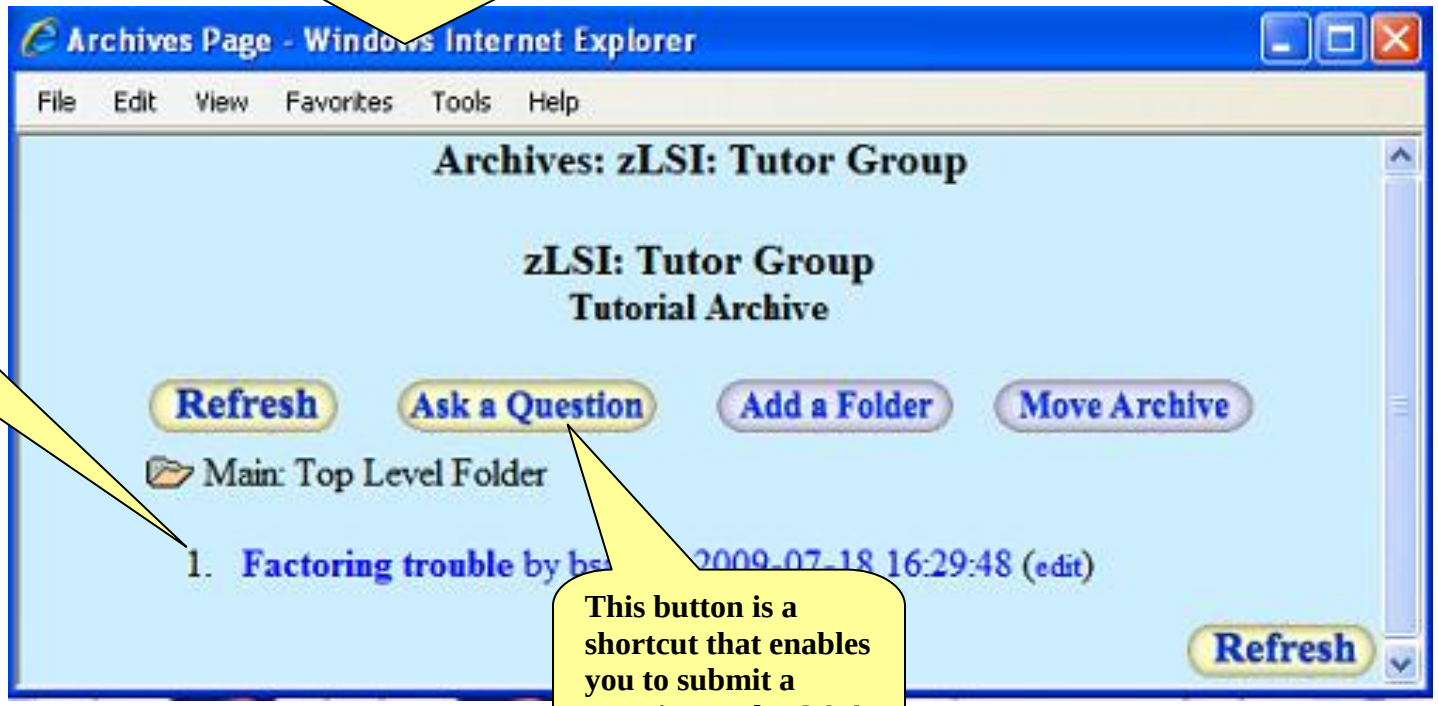
what this means?
What's sad is the
If the paper has multiple pages, the page numbers and navigation buttons will be displayed here. Click on the page number you wish to go to, or click "Next" or "Back."
You can click on the proofreading items to get a detailed description, or just right click on them to see what they mean.
When you have finished viewing the paper, click the Exit button.

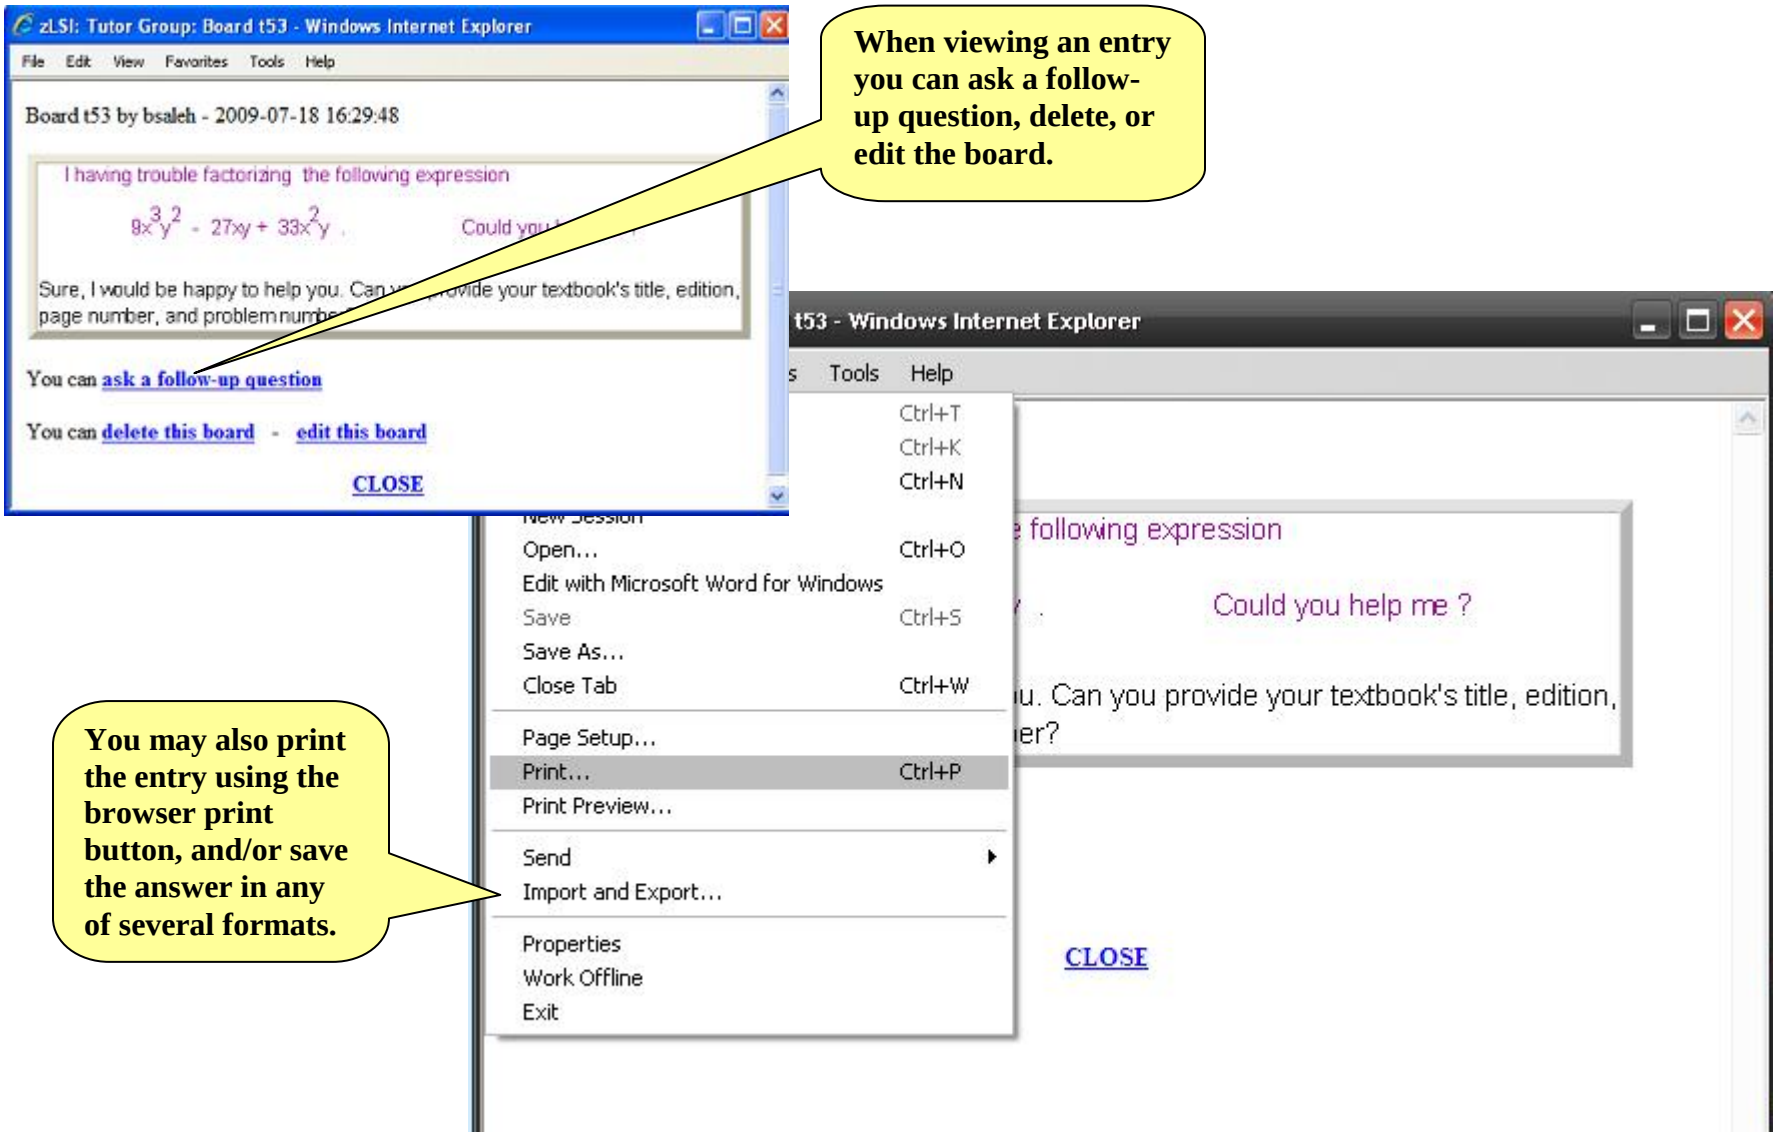
The Tutorial Archive is the location where you will find saved archives of previous Live Tutorial sessions and Q&A Center questions. This is the icon used for the Tutorial Archives.

Clicking on the "Tutorial Archive" icon yields a list of all currently archived questions and answers selected by the tutor from the Live Tutorials or from the Q&A Center.



Simply click on any entry you find of interest.

This button is a shortcut that enables you to submit a question to the Q&A Center.



When viewing an entry you can ask a follow-up question, delete, or edit the board.

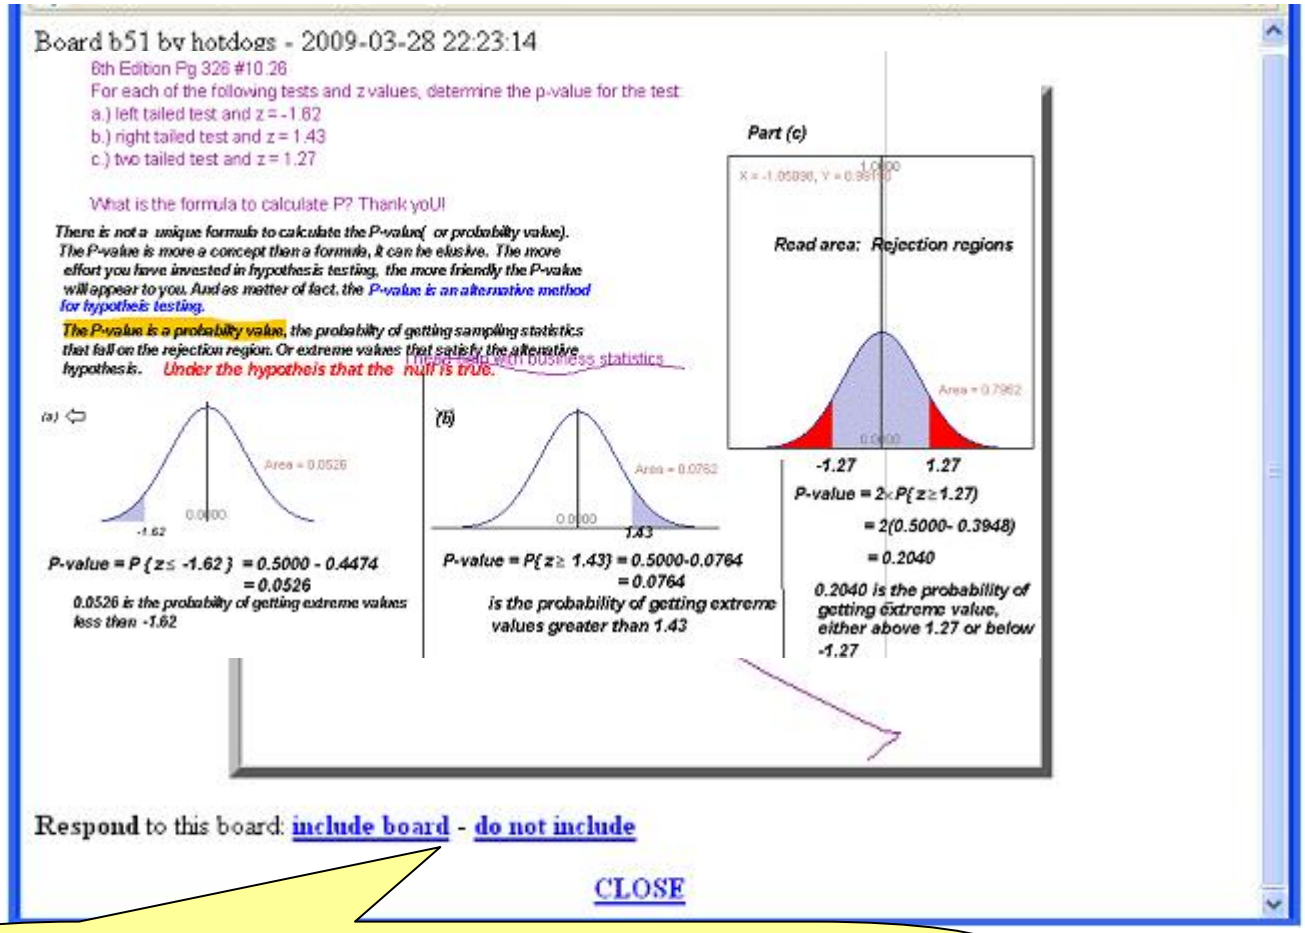
To access archives in folders simply click the name of the folder. The current folder will close, and the folder you clicked on will open.

To view a particular board in any of the listed sessions, simply click on it. It will be displayed in a separate window. You can then print or save it using your standard browser options. Navigation to other boards in the same session is provided at the bottom of each board.



Board b51 by hotdogs - 2009-03-28 22:23:14
6th Edition Pg 326 #10.26
For each of the following tests and z values, determine the p-value for the test:
a.) left tailed test and z = -1.62
b.) right tailed test and z = 1.43
c.) two tailed test and z = 1.27
What is the formula to calculate P? Thank you!
There is not a unique formula to calculate the P-value(or probability value).
The P-value is more a concept than a formula, it can be elusive. The more effort you have invested in hypothesis testing, the more friendly the P-value will appear to you. And as matter of fact, the P-value is an alternative method for hypothesis testing.
The P-value is a probability value, the probability of getting sampling statistics that fall on the rejection region. Or extreme values that satisfy the alternative hypothesis. Under the hypothesis that the null is true.
(a)
Area = 0.0526
-1.62
P-value = P{ z≤ -1.62 } = 0.5000 - 0.4474
= 0.0526
0.0526 is the probability of getting extreme values less than -1.62
(b)
Area = 0.0764
1.43
P-value = P{ z≥ 1.43} = 0.5000-0.0764
= 0.0764
is the probability of getting extreme values greater than 1.43
Part (c)
Read area: Rejection regions
Area = 0.7962
-1.27
1.27
P-value = 2 P{ z≥1.27)
= 2(0.5000- 0.3948)
= 0.2040
0.2040 is the probability of getting extreme value, either above 1.27 or below -1.27
Respond to this board: include board - do not include
